

Placement Lab

Dr. Bradford A. Towle Jr.
Graphics

1. Objectives

- A. To understand the mathematics behind graphical transformations

2. Equipment

- B. A computer that runs Notepad ++ and has a modern web-browser

3. Lab Preparation

- C. Be sure you understand Chapter 4.

4. Lab Instruction

- A. Phase 1 – Creating an object
 - a. I want you to create an 8-sided enclosed shape (It can have more sides if you wish)
- B. Phase 2 – I want you to place three of these objects (Using transforms)
 - a. One will go in the upper-center portion of canvas and it will rotate around the Y-Axis
 - b. One will be placed in the lower left portion of canvas and it will rotate around the X-Axis
 - c. One will be placed in the lower right portion of canvas and it will rotate around the Z-Axis
 - d. These three shapes will NOT move
- C. Phase 3
 - a. If I click on the canvas (it does not matter where) create a new instance of the 8 sided shape in the middle of the canvas.
 - b. The shape will not rotate but it will move in a single (random) direction off screen.

5. Lab Rubric

	Perfect	Some errors or incomplete functionality (No-syntax errors)	Not acceptable
Phase 1	10	5	0
Phase 2	20	15	0
Phase 3	10	5	0
Total	/40
